

# JOÃO AMARAL

## Programmer

@ joao.pedro.matias.amaral@gmail.com [linkedin](#) [github](#) [Rua Sport Grupo Sacavenense, Lisbon, Portugal](#)

## OBJECTIVE STATEMENT

I like to try and create new things, I'm currently studying computer engineering and i wish to be a programmer, because i believe that coding is an art of its own.

## PROGRAMMING LANGUAGES

<b>C</b> Intermediate	<div><div></div><div></div><div></div><div></div><div></div></div>	<b>Java</b> Intermediate	<div><div></div><div></div><div></div><div></div><div></div></div>	<b>Kotlin</b> Advanced	<div><div></div><div></div><div></div><div></div><div></div></div>
<b>Python</b> Intermediate	<div><div></div><div></div><div></div><div></div><div></div></div>				

## SOFTWARE EXPERIENCE

### Intellij (programming tool)

- During my time in the university this is the tool i used to program in.

### Logisim (circuit builder tool)

- Much like Intellij, this is the tool i used on university, however instead of programming, this one is for circuits, more of the engineering part.

## SOFT SKILLS

### Work Ethic / Attitude

Never heard a complaint about time in the past. I manage time well with life and work in mind, and act according to the situation i find myself in.

### Communication

I have been constantly working on my communication over these years but I've never had a complaint about me not expressing myself poorly.

### Teamwork / Leadership

Have been part of numerous group projects in the past, always handled well the people i was working with. Despite that i don't have much experience leading, however if i am needed to i will try my best.

## LANGUAGES

English (Fluent) Portuguese (Native) German (Basics)

## HOBBIES

 Wall Climbing  Drawing  Sound editing

## CERTIFICATION

Lusófona University, Lisbon

Computer Engineering
